SERBIAN SOCIETY OF
MECHANICS

CONGRESS 2007

FIRST SERBIAN (26th YU)
CONGRESS ON
THEORETICAL AND
APPLIED MECHANICS

10-13 April 2007, Kopaonik, Serbia

<http://www.ssm.org.yu/congress2007>

Objectives

The increasing necessity to solve complex problems in Theoretical and Applied Mechanics requires the development of new ideas and innovative methods for providing solutions. The purpose of the Congress is to bring together the scientific communities of Theoretical and Applied Mechanics in an effort to facilitate the exchange of ideas in topics of mutual interests and to serve as a platform for establishing links between research groups with complementary activities. The community of Theoretical and Applied Mechanics will benefit from this interaction, acquainting them with advanced methods which can highly assist in tackling complex mechanical problems.

Congress Topics

The Congress topics will include:

- + A: General Mechanics
- + B: Fluid Mechanics
- + C: Mechanics of Solid Bodies
- + D: Interdisciplinary and Multidisciplinary Problems

Languages

The official languages of the Congress will be Serbian and English. The papers should be written in English and presentation could be in either Serbian and English.
